## To whom it may concern

Transtar International Freight Ltd moved into their current premises in July 2010.

We took the opportunity to conduct a review of our cleaning service providers and ultimately chose Cleancorp on the basis of their presentation, their references, and their pricing.

Time proves the validity of such decisions and we are pleased with ours.

We are very pleased with the standard of work from the Cleancorp personnel. Their prices are reasonable, and the cleaners are always pleasant and easy to deal with. All of this means that our premises always look smart.

We are pleased to recommend Cleancorp to you.

Kind regards  
Transtar International Freight Ltd
