

1 March 2014

We started using CleanCorp in June 2012 and I wish we had started using them years ago.

The level of cleaning compared to our old cleaners is like chalk and cheese - our building has never looked so clean. They are extremely professional, hardworking and courteous.

The Communications Book that they provide ensures that I can leave notes for them if there is anything I need to talk to them about and they can do the same if they need to let me know anything.

I have never had any concerns or issues with them and I wouldn't hesitate in recommending CleanCorp to anyone looking at using them.
